

# Canasafe™

Protecting Eyes Globally, Envisioning the Future...

# Reflect™

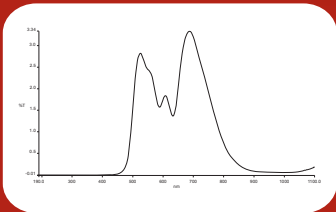

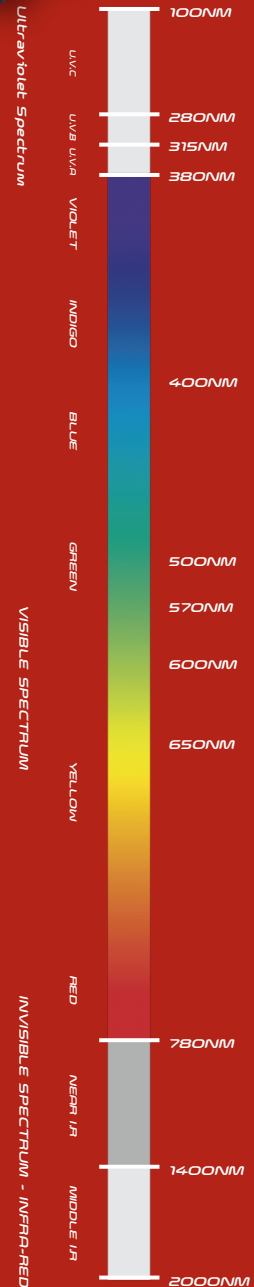

*Engineered to Improve Welders  
Productivity*

*Canasafe™ brings you dedicated eye protection technology for cutting and welding operations. Reflect™ is designed specifically for welders, providing users with a practical solution for their demanding work environment.*

*Functional, Comfortable, Practical. That's Reflect™.*

# Canasafe™

Canasafe™ IR5 Welding spectacles are an ideal solution for your workforce. They absorb harmful ultraviolet, visible and Infrared radiation, protecting the eyes & allowing the user to better see the "weld pool".

Transmission Data # Reflect

Don't be fooled by "Green" imitation lenses. Always ask your manufacturer for test data certification confirming the lens properties before you procure any IR lens.

# Reflect™

## IR Shade 5 Lens

- Optically Correct i-Cote™ Anti Fog/ Anti Scratch Lens
- Protects against impact, UV, Visible Light and Infrared Radiation
- Application - Cutting, Brazing, Gas Welding, Plasma Arc Welding

## INCLUDED:

- Eyeglass cord - reduces scratching and keeps eyewear readily available when you need it most
- Micro-fiber storage bag - protects eyewear and is used to clean the lens

**WARNING: NOT FOR ELECTRIC ARC WELDING. USE ONLY A WELDING HELMET FOR ELECTRIC ARC WELDING.**
