

## CUT RESISTANT SLEEVE FOR FULL ARM PROTECTION

Comfortable 22 inch cut resistant sleeve with a secure, adjustable fastening.

### FEATURES

- › Full arm cut protection from wrist to shoulder
- › Cut resistant: Level D (EN 388:2016)
- › Lightweight - 13gg construction
- › Thinner material on palm and back of hand improves comfort and dexterity when combined with a glove
- › Adjustable VELCRO® Brand hook and loop fastening strap for a secure fit
- › Thumbhole prevents sleeve from rising up and exposing the wrist
- › Light thermal protection up to 100°C for a short period
- › Soft and comfortable to wear
- › Ambidextrous
- › Length: 22 inches (55cm)

### SUITABLE FOR

#### Typical Industries

- Aerospace
- Automotive
- Construction
- Glass
- Logistics
- Plastics
- Steel

#### Suitable Applications

- Castings
- Ductwork
- Engine Servicing
- Glass Handling
- HVAC
- Metalworking
- Sheet Metal Handling

	COATING:	N/A
COLOUR	Grey	
LENGTH (mm)	22 inches	
CUFF STYLE	Elasticated with VELCRO® Brand hook and loop fastener	

## ORDERING DETAILS

SIZE	CODE	PACKAGING
22"	SKY1022	10 pairs per bag 120 pairs per case

## RECOMMENDATIONS FOR USE

- It is the responsibility of the end user and not the manufacturer to determine suitability for the intended use.
- The design of this sleeve does not offer any protection to the fingers and thumb. It is recommended therefore that a user should not wear sleeves alone to protect against hazards but should in addition wear hand protection of which every protection level is not less than that quoted for the sleeve.
- Do not subject to high speed or serrated blades.
- Do not use near moving machines if there is a risk of entanglement.
- Storage: Ideally stored in dry conditions between 10°C and 30°C in the original packaging and sheltered from direct light. Do not exceed 40°C.
- Cleaning/Maintenance: Both new and used sleeves should be thoroughly inspected before being worn to ensure no damage is present. If any damage is found on the sleeves they should be disposed of. Sleeves should not be left in contaminated condition if reuse is intended in which case sleeves should be cleaned as far as possible. If appropriate, decontamination may take place under lukewarm water using laundry soap and detergent. Do not use chlorine bleaches.
